

June 2024

To Whom it may concern.

We are pleased to write this testimonial on behalf of our contractor Gordon Weima. We are writing to enthusiastically recommend Gordon Weima as a custom home designer and builder. Gordon was instrumental in the construction of our forever home, a project that was particularly challenging due to our desire to age in place and the constraints imposed by the COVID-19 pandemic.

From the outset, Gordon demonstrated an impressive depth of knowledge and experience in both design and construction. With respect to the design of our home, Gordon worked closely with us, he listened closely and made our vision a beautiful and truly functional home. He approached our project with professionalism and a genuine enthusiasm that was evident in every interaction we had with him. His ability to navigate the complexities of building during a global pandemic was truly commendable, and he adapted seamlessly to the changing circumstances to ensure that our project stayed on track.

What stood out about Gordon was his sincerity, friendliness, and honesty throughout the entire process. He communicated with transparency, kept us informed and involved in decision-making. He was very conscious of the budget and stuck to it. When we ask for something that was not necessarily required to maintain a high-end result, he would explain the cost/benefit analysis to us and we ended up accepting his original recommendations. He consistently went above and beyond to ensure that every detail of our home was crafted to perfection.

Additionally, Gordon assembled a team of tradespeople who were exceptional. Each member of his team was highly skilled, professional, and clearly respected Gordon and enjoyed working with him. It was evident that he maintains strong relationships with his tradespeople, and their dedication to delivering quality workmanship was a testament to his leadership. Whenever there was an issue or problem, Gordon was quick to respond and work with the trades to come up with workable solutions.

Furthermore, Gordon demonstrated exceptional organizational skills throughout the project. He meticulously coordinated the schedules and activities of his team, ensuring that work progressed smoothly and efficiently. Despite the challenges posed by the pandemic, he managed the project timeline effectively and completed our home within the agreed-upon timeframe.

In conclusion, we wholeheartedly recommend Gordon Weima for any custom home design and building projects. He is not only a talented professional with extensive expertise but also a person of integrity and passion for his craft. Working with him was a pleasure, and we are grateful for the beautiful home he has helped us create.

Sincerely,

Audrey and Barry Chapman
